

# South Brunswick Recycling

## Improvements starting 1/1/12

**We are going Single Stream!** This means that paper items can be mixed with commingled bottles and cans in the same container. For curbside collection it makes no difference which of the existing recycling container(s) (box or round bin) you use. For dumpster collection, one dumpster will be provided for all acceptable materials. Materials will be collected in the same truck and taken to a special single stream plant that will sort items out.

**Recycling program expanded!** All plastics imprinted on the bottom with the numbers 1 through 7 inside a recycling triangle will be accepted for recycling. Items to include are water, soda, milk, juice, soap, detergent, bleach, shampoo and cleaning agent bottles. Also include clean peanut butter, yogurt and diaper wipe containers, margarine tubs and clear plastic clamshell containers. Do not include plastic with no symbol, plastic bags, Styrofoam, toys, garbage cans.

**Remember** recycling saves natural resources, energy, landfill space and money. It produces less pollution, stimulates job growth and is the law in New Jersey.
